INTRODUCTION

Islam is the largest religion in Indonesia. For moment This mosque is spread throughout Indonesia more of 900,000 mosques yet including surau and prayer room. The mosque is Muslim houses / places of worship. Great mosque potential will be sufficient when the mosque was made central or center activity empower pilgrims even the surrounding community. The mosque is also a center life community muslims . For now this is a mosque is n't it only as the place worship only, but also can working social , education like lesson read the Qur'an (Taman Pendidikan Al-Quran/ TPQ) and Arabic, apart from that, mosques can too working for learn art like hadrah and shalawat , and other functions are economy. Empowerment Public is one of the most important things for done in today 's era this , thing this caused role diverse strategic activity for resilience , independence and progress Public surroundings , especially in the field of religious , educational, social , cultural , economic Public local as well as implement government programs in skeleton acceleration of development programs , then how carry out education and empowerment Public with the mosque as central activity people around the mosque. Al-Amin Mosque is a mosque located in Perum Griya Surabaya Asri Village Sambirejo Pakal Surabaya. In addition , the mosque is under the auspices of the Al-Amin Foundation. Besides being a place of worship, this mosque is also available the place Al-Qur'an education (TPA), and schools (PG/TK Islam Al Amin).

Activity devotion to Public is form implementation Tri Dharma College activities. Activity devotion to Public expected could help Public in solve problems in society especially those around the Al Amin mosque. As for the purpose devotion to Public this is for increase the function of the mosque as central activity people with education and empowerment society .

This community service activity is expected to provide benefits that the function of the mosque as the center of the community's activities is carried out with a mandate that is given to mosque so that it can increase the love of the people for the mosque.

LITERATURE REVIEW

Baitullah or God 's house is another term for the mosque, which has function and role important for people Muslims in the world. As the place kneel or worship is the main function of the mosque. The most important function of a mosque is as a place of worship, but there are other functions than the existence of a mosque, namely as a place of education, coaching and a place for community empowerment. Mosque as center education working as the place learning process activities teach in deepen Islamic religious knowledge such as in form learn the Koran, hadith and study art like hadrah . With function as a mosque center education and empowerment expected will capable increase quality people very expected especially for community around the mosque. Activity society , ok formal activities and information could done in the mosque. M society just , prosperous and prosperous physically and mentally is the goal of Indonesia's development, this can be realized by many activities celebrating Islamic holidays, training, and empowering the poor who become not quite enough answer the mosque and will grow mosque independence . Empowerment is something method how society , organizations , and communities directed to be able dominate life (Zulfa, 2014). The mosque has ability in strengthen people to direction Becomes more good . More general again , empowerment Public is a process how Public especially those who are poor in resources power, people neglected women and groups others , are supported to be able to increase his well-being by independently (Mardikanto , 2015). In other words, the mosque is expected Becomes part not inseparable from achievement well-being people Muslims in general .

Mosque don't seen from beauty building only , but optimizing the function of the mosque in life have people must more highlighted . Mosques don't have to be big, but the activities that can be carried out can be varied and beneficial for the surrounding community, such as: study routine , religious and family consultation , empowerment economy people and others. Synchronization empowerment the potential of the mosque with empowerment potency social and educational and others for interest people are needed . Al-Amin Mosque is one of the most capable mosques To do coaching and empowerment people .

Empowerment could interpreted as exit process from condition incompetence , helplessness , or related things with weakness , then empowerment required for change so that something community directed for dominate circumstances , so that could Empower use . Al Amin Mosque which is located in the Pakal , this city of Surabaya is a mosque with potential carry out empowerment programs people specifically in the field social and educational . Majid Al-Amin has purposeful activities _ for follow empower people and education for the surrounding community .

METODE

Devotion to community this use a number of stages as follows : _

Preparation stage , at this stage as a community service team comes to the location to identify problems that exist in the community around the Al Amin Mosque. Next , take care of letter permission Chairman Ta'mir Mosque Al-Amin Surabaya and shape Team Execution and convey program we to administrator mosque so that support to follow activity the.

Implementation Stage activities , implementing activities the use some method mentoring and training among others:

Lecture method.

Method lecture chosen for give explanation about how the mosque as center education and empowerment people.

Method ask answer
